# Template Instructions

You can customize this template to make it match your own library branding! [Click here to get the Canva template link](#).

You can find the NC LIVE-branded version of this flyer on our [Promotional Materials page](#).

1. Change the three large triangles around the edge of the flyer to your library's brand colors. Make sure to change the text color if needed. If you need to change the colors of the QR code, click on the code, and select "Edit" in the toolbar at the top of the page. Then, select the colors you want within the "Customize" menu.
2. Add your library logo above the NC LIVE logo in the bottom right corner. Make sure to delete the text that says, "Your library logo here." Feel free to move and resize the NC LIVE logo as needed.
3. Hang your custom flyers around town where people are likely to see them!

If you have any questions, please reach out to help@nclive.org.
