

Table Tent Printing Instructions

These table tents are intended for 11" x 17" paper. There are two table tents per sheet.

1. Load 11"x17" paper into your printer.
2. Print the table tents on one side of the paper only.
3. Cut along the dotted lines. Do NOT cut off white sections at the bottom of the design.
You will end up with two long strips.
4. Fold each strip along the gray line in the middle.
5. Fold each of the two white rectangles in toward each other to create the base of your table tent. Tape them together to create the stand.
